Scottish Criminal Evidence Law

Scottish Evidence Law Essentials

If you could change one part of the criminal law, what would it be? The editors put this question to nine leading academics and practitioners. The first nine chapters of the collection present their responses in the form of legal reform proposals, with topics ranging across criminal law, criminal justice and evidence – including confiscation, control orders, criminal attempts, homicide, assisted dying, the special status of children, time restrictions on prosecution, the right to silence, and special measures in court. Each chapter is followed by a comment from a different author, providing an additional expert view on each reform proposal. Finally, the last two chapters broaden the debate to discuss criminal law reform in general, examining various reform bodies and mechanisms across England, Wales and Scotland. Criminal Law Reform Now highlights and explores the current reform debates that matter most to legal experts, with each chapter making a case for positive change.

Human Rights in Criminal Procedure

Published in 1999. Scottish criminal law and procedure are very different from their counterparts elsewhere in the United Kingdom. This book is the first socio-legal account of the Scottish criminal justice process and its constituent institutions. Its aims are: to explain the operation of the various elements which make up the ‘system’; to summarise the considerable volume of relevant Scottish research; and to locate this knowledge within contemporary theorising about criminal justice. To this end, the editors commissioned a team of experts to write chapters on the various stages of institutions of the Scottish criminal justice process. Given Scotland’s broad social and cultural similarities to the rest of the United Kingdom, the book also provides a useful comparative perspective which should help to discourage the tendency towards overly ethnocentric theorising south of the border.

Bowker’s Law Books and Serials in Print

Criminal cases raise difficult normative and legal questions, and are often a consequence of compelling human drama. In this collection, expert authors place leading cases in criminal law in their historical and legal contexts, highlighting their significance both in the past and for the present. The cases in this volume range from the fifteenth to the twenty-first century. Many of them are well known to modern criminal lawyers and students; others are overlooked landmarks that deserve reconsideration. The essays, often based on extensive and original archival research, range over a wide spectrum of criminal law, covering procedure and doctrine, statute and common law, individual offences and general principles. Together, the essays explore common themes, including the scope of criminal law and criminalisation, the role of the jury, and the causes of change in criminal law.

Criminal Justice

The fourth edition of this popular text has been expanded to accommodate social workers’ continuing need for a thorough grounding in the statutory framework of local authority practice and the wider legal context of social work in the statutory and voluntary sectors. The separate chapter on social work law in Scotland addresses continuing developments in relation to devolved government and new legislation. Since 1996, the pace of change has been remorseless. Part IV of the Family Law Act has been implemented; youth justice in England and Wales has been substantially reformed; the Human Rights Act 1998 impacts on areas of social work practice; and social security law has been significantly amended. The Adoption and Children Act 2002 will both radically reform the law relating to the adoption of children and significantly amend the Children Act 1989. All these important changes, central to social work practice, are addressed in detail.

This collection of essays honours the work of Sir Gerald Gordon CBE QC LLD (1929-). In modern times few, if any, individuals can have been as important to a single country's criminal law as Sir Gerald has been to the criminal law of Scotland. His monumental work The Criminal Law of Scotland (1967) is the foundation of modern Scottish criminal law and is recognised internationally as a major contribution to academic work on the subject. Elsewhere, he has made significant contributions as an academic, judge and as a member of the Scottish Criminal Cases Review Commission. Reflecting the academic rigour and practical application of Sir Gerald's work, this volume includes essays on criminal law theory, substantive law and evidence and procedure by practitioners and academics within and outside of Scotland, including contributions from England, Ireland and the USA.
